

## Organization Overview

July 2026

# Foundation

The Kinki Bio-industry Development Organization (KBDO) was established in March 1985 by Dr. Yuichi Yamamura, President of Osaka University, and others in industry and government to promote bio-industry in the Kansai region more effectively by bringing industry, academia, and government together.

Dr. Yuichi Yamamura

## Kansai (Kinki) Region

Since a long time, the Kansai region has been enriching the lives of people around the world by combining the power of its people with a spirit of challenge and by pioneering new industrial fields.

Kansai is home to many of the nation's top universities. It has a remarkable history of industrial development and of achievements of people and companies with advanced knowledge and technology, making it a world-class biocluster.

# Overview and Greeting

Name	NPO Kinki Bio-industry Development Organization (KBDO)
Foundation	March 1985 (Transitioned to a non-profit organization in April 2003)
Mission	We aim to achieve a comfortable and vibrant society by conducting projects related to bioindustry promotion, maintaining and improving people's health, and protecting the environment of society, and so on.
Address	3rd Floor, Imon Kawaramachi No.2 Building4-8-4 Kawaramachi, Chuo-ku, Osaka-shi, Osaka 541-0048 Japan
Chairman	Dr. Tsuneaki Sakata (Specially Appointed Professor Co-creation Bureau Osaka University)
Board	29 members
Member	123 institutions

Chairman  
Dr. Tsuneaki Sakata

I am Tsuneaki Sakata, Chairman of the NPO Kinki Bio-industry Development Organization. For more than 20 years, I have been involved in industry-government-academia collaboration projects as a director and vice-chairman of this organization, and I have been involved in communication with overseas bio-clusters. In recent years, I have served as President of the All Japan BioCommunity Liaison Committee. Biocommunity Kansai(BioCK), established in July 2021, has become increasingly prominent as a global biocommunity accredited by the cabinet office and has begun activities toward forming a bioeconomy in the Kansai region. Since its establishment in 1985, KBDO has formed important networks with industry, government, and academia. We wish to take over this valuable asset and devote ourselves to the further development of the bio-industry. We look forward to your continued support and guidance.

# Activities

## Industrialization Support

- ◆ Biocommunity Kansai (BioCK)
- ◆ Industry-academia Individual Matching

## Startup Support

- ◆ Kansai Bio Business Matching
- ◆ Life Science Overseas Business Development Support Project with Osaka Prefecture
- ◆ Support for Exhibiting at BioJapan
- ◆ Japanese Biotech Startup Database

## International Exchange

- ◆ New Year's International Exchange Event

## Study Groups (the members only)

- ◆ Food Design Lab
- ◆ Meeting on the Next Generation of Biotechnology
- ◆ Capillary Laboratory and Social Implementation Consortium
- ◆ Gastronomy Tech Research Group

## Seminars and Lectures

- ◆ Kansai Life Science Leading Scientists Seminar
- ◆ Board Meeting·General Assembly and Commemorative Lecture

<b>Vision</b>	Spreading a bio-first approach to build a Global Biocommunity and realize a sustainable society
<b>Goal</b>	Creating an ultimate ecosystem for the bio-fields in Kansai
<b>Key word</b>	Shifting from “Accumulation” to “Collaboration”

## Name

Biocommunity Kansai  
Abbreviation: BiocK

## Establishment

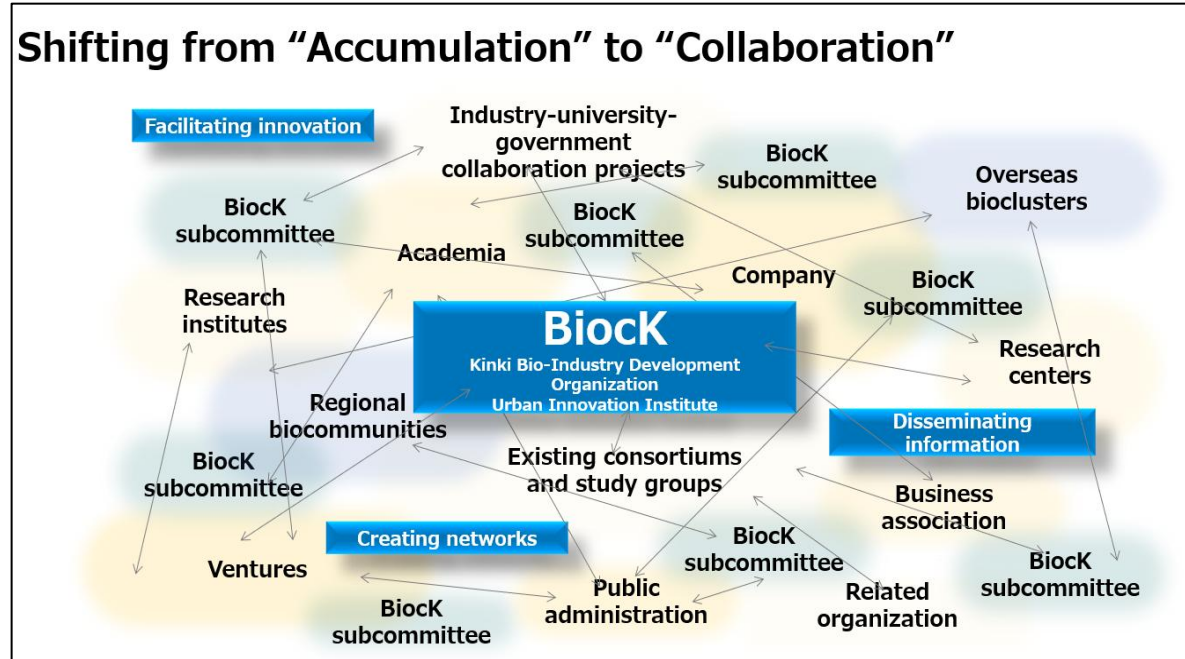

July 1st, 2021

## Certification

April 22, 2022

(Global bio-community certification by the Japanese cabinet office)

<https://biocK.jp/en/>

# Business Matching

## Kansai Bio Business Matching

- Held since 2011
  - **Fully online** since 2020
- Target fields : **Biotechnology in general (pharmaceuticals and drug discovery, drug discovery support, research support, regenerative medicine, healthcare, food, food with functional labels, cosmetics, materials, chemistry, analysis, agriculture, fisheries, livestock industry, environment, energy, digital and AI, etc.)**

Format : Online

From the next fiscal year onward, we plan to consider inviting participants from overseas.

## Support for Exhibiting at BioJapan

- We operate a joint exhibition booth to support exhibits by member companies.
- FY2025 : 14 companies

## Biotech Startup Database

- This Japanese Biotech Startup Database is edited and managed jointly by Japan Bioindustry Association and NPO Kinki Bio-Industry Development Organization in cooperation with supporting organizations to biocommunities and biotech startups of each region in Japan.

# Study Groups, Seminars and Lectures

## Food Design Lab

Activities were started in 2006 to develop and commercialize functional food products approved by doctors and expected by consumers.

## Capillary Laboratory and Social Implementation Consortium

It started in 2021 to establish capillary imaging as a health indicator and to implement it in society.

## Meeting on the Next Generation of Biotechnology

Relaunching with the aim of building a network of new bio leaders from industry, academia, and government, and promoting interaction among various stakeholders.

## Gastronomy Tech Research Group

While carrying on the diverse food culture of Kansai, we combined technology and our vision to create a platform that delivers 'genuine deliciousness' to the next generation.

## Board Meeting·General Assembly and Commemorative Lecture (Kinki Bio Members Only)

"Immunological Research and Clinical Applications" President Atsushi Kumanogoh, Osaka University June 20,2025

## Kansai Life Science Leading Scientists Seminar

Seminar by Leading Scientists in the Life Sciences Field in Kansai.

## New Year's International Exchange Event & Talk Seminar

The New Year's event will promote exchange and information exchange with biotechnology-related organizations and other organizations in various countries. A talk seminar featuring Mr. Mitsuru Miyata of Miyata Institute of Technologies and executives from leading companies.

# Aiming to Contribute to Solving Social Issues

- ◆ Biocommunity Kansai (BioCK)
- ◆ Meeting on the Next Generation of Biotechnology
- ◆ Kansai Life Science Leading Scientists Seminar

- ◆ Board Meeting · General Assembly and Commemorative Lecture
- ◆ New Year's International Exchange Event

◆ Capillary Laboratory and Social Implementation Consortium

- ◆ Individual Matching
- ◆ Kansai Bio Business Matching
- ◆ Support for Exhibiting at BioJapan
- ◆ Japanese Life Science Startup List

- ◆ Food Design Lab
- ◆ Gastronomy Tech Research Group

- Extension of Healthy Life Expectancy
- Improvement of Food Self-sufficiency
- Global Warming Countermeasures
